

**Complimentary One-Day
Fan Engineering Seminar
Minneapolis, MN**

Learn from the Leader in Fan Engineering

Aerovent is an industry leading designer and manufacturer of high quality fans and blowers for all fan applications from heavy industrial to light commercial. Our experienced fan engineers want to share their knowledge with you!

Fan Engineering: The Basics **Tuesday, March 6, 2012 from 8:15 a.m. – 5:00 p.m.**

Broaden your knowledge of fans and their application in general commercial/industrial facilities.
Certified by the Professional Institute of Engineering for eight professional development hours.

- Fundamentals of airflow, fans & duct systems
- Fan installation, operation & maintenance
- Selecting the right fan
- Fan system effects
- Balance and vibration
- Fan Sound

Training seminars are conducted at our corporate headquarters in Minneapolis, MN. Seminars are filling quickly and seating is limited. Continental breakfast and lunch will be provided. A networking reception will follow the seminar. For more information about seminar specifics and to sign up, please visit www.aerovent.com.

Aerovent designs, manufactures and sells a complete range of centrifugal and axial fans and blowers, ventilators and related air moving equipment.
